

# How to Search for Information in Different Formats

## Electronic Books

## **Introduction**

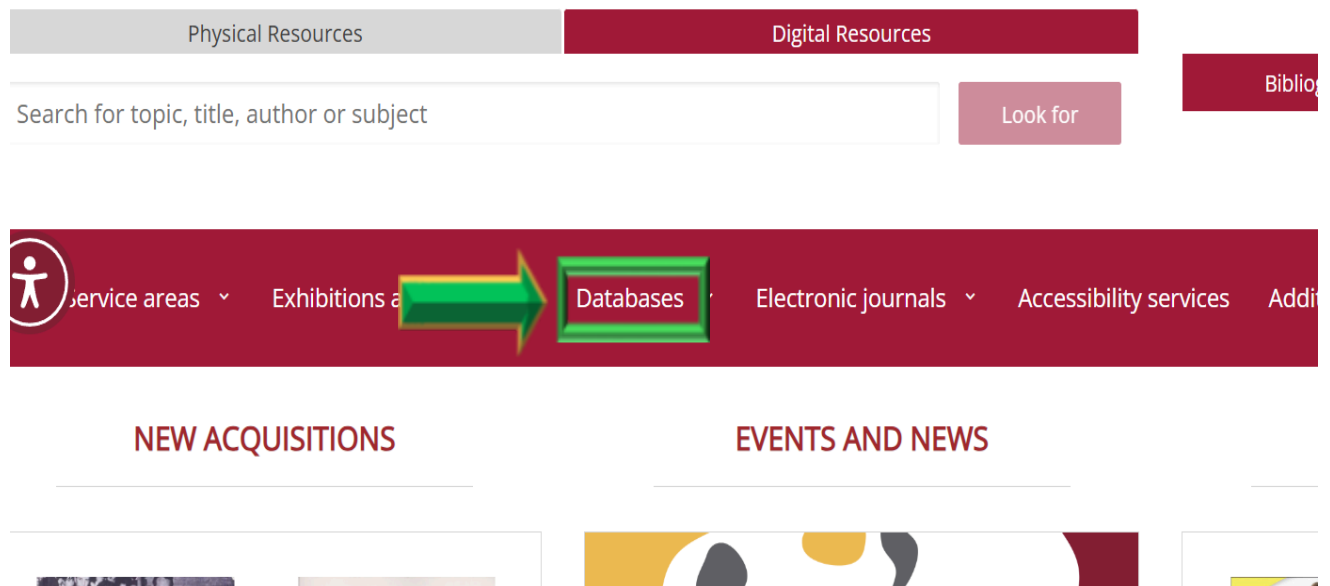

The page of the Biblioteca Madre María Teresa Guevara allows you to search for information resources in various ways to meet different purposes. One of these alternatives is to search for information by printed, digital, or audiovisual format.

### **Why Might You Need to Search for Information Resources in a Particular Format?**

For example, you may need to find the textbook for a class. For this, you will need to search for printed resources. If you need to find newspaper articles for a class, it is convenient to search in a news database. If you need to see what is said about a topic you will research, finding an electronic book can help. If you are looking to watch a documentary, it may be convenient to check audiovisual resource databases.
